Insurance Foundation Scheme

We are offering the opportunity to work in all parts of our business over an 18 month period, which will give an overview of the way our organisation works.

Our in-house training department will provide you with the knowledge and skills to be able to make a real contribution to the company.

You will be assigned a 'mentor' who will be your regular point of contact for guidance and support and there will be regular reviews to see how you're progressing.

At the end of the 18 months, there may be a permanent opportunity for you, depending on your capabilities and the requirements of the business.

Let us answer any questions you may have!
